ABOUT US

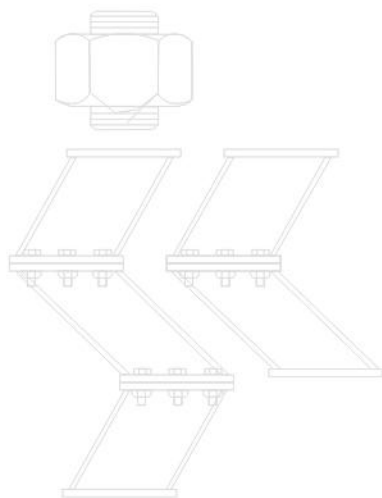

High Quality Steel Buildings

Inura Constructions Established on 2007 offers a complete range of steel buildings to suit all budgets and design requirements. Our aim is to ensure we have a solution for every situation.

All our materials are British standard made with full manufacturer's warranty up to 25 years. We only employ the services of approved contractors to ensure the quality of our workmanship and steel buildings is maintained.

All our materials comply with British Standards BS6399 (part 2) and exceed ISO 9001-200 leaving you with a steel framed building designed to withstand our challenging climate.

A reliable approach for fast turnkey construction of industrial buildings such as manufacturing plants, storehouses, commercial buildings, sports centers, offices, car parks, garages and any type of Steel structure.

VISION | MISSION

Our Vision

For prefabricated steel structures to be recognized as the bench mark in the steel buildings industry; this will be accomplished through product **P**erfection, engineering **E**xcellence and the **B**est customer services in the industry.

Our mission

To bring the prefabricated steel structures technology to where it is most needed in the world and help others “build a better life” through industrialization.

To (jointly) build high capacity, efficient & cost effective steel factories for speedy delivery and for benefitting from “large economies of scale”.

To design and fabricate safety and technologically advanced buildings.

To offer customers versatility in design & fabrication to meet their exact building requirements.
